

EMERGENCY SERVICES

EMERGENCY DISASTER SITE

Nepperhan Center has been designated as an Emergency Disaster Site by the Red Cross and the City of Yonkers Emergency Management Office. Additionally, we have been identified as a safe space for several local schools in the event an emergency should occur in one of the school buildings. During the summer, our agency has also been designated as a cooling center particularly for those elderly citizens who may not have air conditioning when the temperatures become very hot. For more information, please contact -
